DE PERE

# WHO WE ARE

Lawton De Pere is a trusted producer of gray and ductile iron castings for demanding industrial applications. With decades of casting expertise and continuous investment in modern foundry technology, the De Pere facility delivers high-quality castings with consistent metallurgical control, dependable lead times, and scalable production capacity. Customers rely on our engineering support, pattern capabilities, and integrated supply network to move efficiently from design to delivery. Backed by the strength and stability of the broader Lawton Standard platform, we provide our customers with more solutions than ever.

## COMPANY VALUES

HONESTY  
CARE  
CONTINUOUS IMPROVEMENT  
SUCCESS

## MEET THE FAMILY

IRON CASTINGS UP 45,000 LBS  
STEEL CASTINGS UP TO 5,500 LBS

ISO CERTIFIED AT ALL  
LOCATIONS

calawton.com 920-337-2470

# WHAT WE DO

## CASTINGS

- Gray and ductile iron from 400 lbs. - 20,000 lbs
- Up to 30,000 lbs. for low-volume requirements
- Maximum casting size is 90" x 90" x 59"
- Maximum part weight for ductile iron is 14,000 lbs.

## MELT

- Two coreless induction furnaces - 10 ton capacity each
- 30,000 lb pour weight Gray Iron
- 20,000 lb pour weight Ductile Iron

## PATTERNS

- In-house pattern shop
- Pattern modeling
- Patterns (up to 150" square)
- CNC foam
- Multiple types of wood
- Urethane

## MACHINING

- CNC Live Tooling VTL, Manual VTL
- CNC 5-Axis Boring Bar, Manual Boring Bar
- Key seating
- Radial Drills
- Static and Dynamic Balancing
- Assembly
- Hydro-Testing
- ASME Pressure Vessel Certified
- Faro Arm CMM
- Gear Hobbing

## ENGINEERING

- Full solid modeling and metal-flow simulation services
